SQA Engineer & Project Management Professional with 5+ years of experience in software quality assurance, test automation, and project delivery. Skilled in requirement analysis, test strategy, API, database, performance, and end-to-end testing. Experienced in AI-assisted testing using Claude AI, Claude Code, Playwright, MCP, and k6, with a strong focus on automation, test coverage, defect management, and delivering reliable software. Research interests include LLM-generated software testing and AI-driven healthcare analytics.

WORK EXPERIENCE

ADN Diginet Limited | BRAC Bank (Augmentation) — **Dhaka, Bangladesh**
Sr. SQA Engineer — *October 2026 – Present*

- Perform REST API testing to validate service behavior, response status codes, payloads, authentication, and business rules.
- Conduct negative, boundary, and integration testing to identify defects in **transaction processing**, service dependencies, and exception handling.
- Validate API data consistency across **Oracle** and **MongoDB**, ensuring response accuracy and alignment with backend records.
- Develop and maintain Playwright automation, including Playwright MCP workflows, to improve regression coverage and test efficiency.

WebAlive (Web Mascot Pty Ltd) — **Remote**
Software Engineer in Test (PM) — *May 2023 – September 2026*

- Analyzed requirements and designed manual and automated tests for **API**, **database**, **regression**, and end-to-end workflows.
- Developed and maintained **Playwright** automation, including Playwright **MCP** workflows.
- Used Claude AI, **Claude Code**, Claude Agents, and Claude Design for test generation, debugging, analysis, and QA workflow optimization.
- Conducted **k6** and **JMeter** performance testing, managed defects, and collaborated with cross-functional teams.

Bit Mascot (Pvt.) Ltd — **Dhaka, Bangladesh**
Software Quality Assurance Engineer — *September 2020 – April 2023*

- Designed and executed functional, regression, API, and database tests based on business requirement.
- Validated industrial data-tracking workflows and data accuracy using SAP-integrated tools.
- Reported, tracked, and verified defects to support reliable software releases.

United International University — **Dhaka, Bangladesh**
Adjunct Faculty — *July 2025 – Present*

- Deliver lectures and instruct undergraduate courses in System Analysis and Design, focusing on industrial project requirements analysis, system design, and project documentation.
- Mentor student teams in software project development and technical documentation.

EDUCATION

United International University — Dhaka, Bangladesh
Bachelor of Science in Computer Science and Engineering — *May 2016 – October 2020*

CGPA: ***3.92/4.00*** *(Best Thesis Awardee)*

Notre Dame College — Dhaka, Bangladesh
Higher Secondary Certificate in Science — *January 2012 – January 201*

GPA: 5.00/5.00 (Winner of National Science Fair 2013)

RESEARCH PUBLICATIONS

- Whose Specification Did You Test? The Hidden Interpretation Bias in LLM-Generated Test Suites
  RASE 2026, IEEE/ACM International Conference on Automated Software Engineering (ASE 2026). Published in the ACM Digital Library. | DOI: https://doi.org/10.1145/3820756.3844908

- Artificial Intelligence in Healthcare: Predictive Analytics for Early Detection of Chronic Diseases
  International Journal of Medical and Health Research, 2026. | DOI: https://doi.org/10.61424/ijmhr.v4i1.852

ADDITIONAL SKILLS

Project Management & ERP: Reporting, Agile, Waterfall

AI & AI-Assisted Testing: Claude AI, Claude Code, Claude Agents, Claude Design, AI-Assisted Test Automation, AI Agent Skill Creation, MCP

Tools & Productivity: Jira, Confluence, Git, GitHub, Excel, MS Project Planner

API & QA: Postman, API Testing, Database Testing, Functional Testing, Regression Testing, End-to-End Testing, Test Case Design, Defect Management

PROJECTS

AutoBill / Exsited (SaaS Accounting Platform)
Worked on a cloud-based accounting system similar to MYOB/Xero, Performed API, database, and end-to-end testing, validated financial workflows including billing, reporting, and transactions.

RGS (E-commerce, Booking & Registration Platform)
Test Lead for a platform serving 24+ universities, Ensured smooth delivery of booking, payment, and registration features.

Mining Hub (Resource Trading Platform)
Tested large-scale data workflows and trading functionalities, Performed system, API, and performance testing for high data volume.

Locum West (Healthcare Job Portal)
Conducted end to end testing for job posting and application flows, Validated user roles (doctors, hospitals) and core platform features.

ACHIEVEMENTS

- 2nd Runner up of **HULT PRIZE** and 1st Runner up Entrepreneurship 360 (Road to Hackathon 2019)
- Champion Hardware Section (UIU CSE Project show Fall 2019) (Waste Management System)
- Champion of the Poster Presentation (UIU Intra University Mathematical Olympiad 2019)
